Easy to prepare and use. Just fill with fresh cut fruit and water and place in freezer. Natural fruit infusion takes time, so while freezing, the water-to-ice becomes naturally infused by the fruit. This infusion process is enhanced by the expanding water-to-ice applying gentle pressure on the fruit to release its deep flavour. Once frozen, the resulting icicle has already been highly pre-infused.

RICH FLAVOUR RIGHT AWAY ...AND ICE COLD

When ready to use, simply drop the icicle into your hydration bottle (needs 2" opening) or tall glass and fill. The icicle immediately starts to release its infused flavour so you will quickly have a delicious natural fruit infused cold beverage.

The icicles fresh fruit flavour will always be preserved while frozen, ready to enjoy at any time.

Set of 2 silicone moulds, one green & one orange. Each mould measures 3" x 2.5" x 8.5". BPA free, dishwasher safe. Colour box.

Fill & freeze several moulds to have ready to enjoy any time (2 sets shown)

Icicles are perfect for tall beverage glasses. Also use 2 or more in pitchers.

Anchor Hocking is proud to be a leading glass manufacturer in America. We strive to maintain high standards to provide the finest quality products in the marketplace today. Our “Made in the U.S.A.” logo is featured on our packaging to bring awareness to the consumer of the products manufactured in the U.S.

Anchor Hocking has been in the business of manufacturing glassware products for more than 100 years. As befits a company with our heritage, we have continued to produce quality glassware throughout the decades. We manufacture a majority of our products in Lancaster, Ohio. We are as emphatic about the quality of our products today—proud of the design and of the value they represent for consumers and the fact that you will find them in the kitchens, bathrooms and living rooms of most every home. But there is one way in which we have changed in recent years, and that is the corporate-wide commitment we have made to become a more environmentally friendly company. It is an initiative we view as being vital to our future, and we’re taking many positive steps to make it happen.

Anchor’s Glass is 100% recyclable once a product has met its life’s end. This helps reduce trash in landfills, cuts down on pollution and saves raw materials. Anchor reclaims all of our waste glass known as cullet. We then reuse the cullet in our furnaces to help create new glass. That means using fewer raw materials, saving energy, cutting down landfill waste and less pollution. Anchor has instituted a Corporate Responsibility for Sustainability program that identifies opportunities for waste reduction including raw materials, energy and pollutants on an ongoing basis. We design our packaging to reduce environmental footprints. Anchor utilizes recycled and recyclable materials as often as possible along with reducing the overall packaging material requirements and size. This reduces the need for new raw materials and allows us to ship more products using less transportation and fuel. Anchor’s glassware does not contain lead or any other materials that are harmful to your health. In addition, plastic lids used on Anchor food products are BPA free.

Nordic Ware is a family-owned American manufacturer of quality kitchenware products. Made in the USA.

Founded in 1946, Nordic Ware's first products included a variety of ethnic bakeware specialties, such as the Rosetta Iron, the Ebelskiver Pan and the Krumkake Iron. Nordic Ware is best known for creating the Original Bundt® Pan. Today, over 65 million Bundt® Pans are in homes across North America.

Nordic Ware is a leading manufacturer of high quality and innovative kitchenware products. By designing products of superior value, producing them in the United States, and marketing them worldwide, we enrich people's lives by adding utility, convenience and enjoyment to the preparation of food. Nordic Ware prides itself on providing long-lasting, quality products which are often handed down from one generation to the next.

Original cast aluminum bakeware provides fine details and superior baking performance. Heat reflective exteriors ensure uniform browning so as to enhance the pan's unique designs. Non-stick coated. Limited lifetime warranty.

Colour-coded accents clearly identify which lid belongs to its matching base. A vent in each lid releases steam when being used in the microwave to heat up leftovers. Four latches and a silicone gasket create an airtight and watertight seal, keeping food fresh and preventing liquids from spilling.

BETTER ZESTER

Using the KitchenIQ™ Better Zester is just fun! Never before has zesting been so effortless. The combination of the V-etched teeth and non stick coating allow this Better Zester to skim across the surface of rough citrus while producing thin wisps of flavourful zest without grating into the bitter pith. The frame of this unique Zester is formed with a slight curve allowing a smoother, more steady stroke when zesting. (Or what some call violining! Now just call it better zesting!) KitchenIQ™ has added additional features like the fresh zest storage container with a fantastic squeegee attached for easy zest removal from the blade.

The KitchenIQ™ Better Zester is simply a better way to zest!

- Patented stainless-steel V-etched zester blade. Over 300 V-etched teeth, use the shear action of their unique V-shapes to produce even, uniform cuts while using minimal force.
- Patented non-stick food approved coating allows foods to glide across the blade smoothly and makes clean up fast and easy.
- The fresh zest container includes measurements and holds the freshly grated zest, allowing cooks to place the zest directly into their dishes (no need to dirty a measuring spoon).
- The “one of a kind” squeegee slides across the back of the blade removing the flavour rich moist zest from the back side of the blade.
- Ergonomic soft touch handle and non-slip tip.
- Designed in the USA by Smiths®, The Edge Experts®, a leader in producing sharp edges since 1886.
- Top rack dishwasher safe.

In 1882, an Indianapolis chemist noticed how clean and shiny his tarnished pot was after cooking rhubarb. Using an active ingredient that's found in the plant he formulated a talcum-smooth cleanser and sold it to the city's taverns. So pleased were his customers with how well it worked on bar fixtures, the product was dubbed the "Bar Keepers Friend."

The same non-bleach formula that put a shine to the brass rails of taverns at the turn of the century is used in households today on stainless steel, porcelain and ceramic surfaces among many others.

Today, Bar Keepers Friend is still made in Indianapolis and contains no phosphates.

Island Bamboo™ products are an earth friendly choice for kitchenware products because they are high quality with a long useful life, manufactured from bamboo, a renewable resource and thoughtfully packaged to reduce waste.

The Island Bamboo™ brand is manufactured exclusively from Moso bamboo, which is not a food source for China's endangered Giant Panda.

Bamboo is a renewable resource and viable alternative to wood and petroleum based products. It is a plant that grows abundantly, as much as 2 feet per day, with little water while providing 35% more oxygen than similar standings of timber.

Our unique design keeps butter at the perfect “spreading” consistency by reflecting outside heat while insulating and cooling the butter. Flavour and freshness is protected by an airtight seal of water at the base of the crock.

Proper maintenance: water should be changed out every three days. Replace existing water in the base with fresh, cold water. The crock should be stored away from heat or sunlight.

Holds up to one full stick (1/2 cup) of butter. Softened butter is packed firmly into the bell-shaped lid. Cold water is poured into the base of the crock. The lid is placed upside down back into the base of the crock. Soft, spreadable butter may be enjoyed and served right from the crock.

Classic Crocks

The Original Butter Bell® Crock is a modern version of the Authentic French Beurrier. Each piece is individually hand painted for a one of a kind uniqueness. Two styles have the French word for butter “Beurre” on one side and the English word “Butter” on the other. Made of high quality New Bone China crocks are dishwasher safe and lead free.
