Founded in 1886 in Hot Springs, Arkansas, Smith's stellar reputation for innovation and quality is built on a heritage of designing products of great value to its retail partners and consumers. Smith's Consumer Products, Inc. is excited to introduce its new housewares brand name KitchenIQ.

The KitchenIQ brand highlights our long-standing reputation for Innovation, and Quality clearly reflects our commitment to producing superior products that are smart for the kitchen. KitchenIQ confirms to consumers that they are making a smart decision in buying our products, and we look forward to building on our 128 year heritage under this vibrant new brand name.

**ARE TWO ANGLES REALLY ENOUGH?**

Euro knives: 11-22 degrees per side. Asian knives: 10-18 degrees per side. KitchenIQ™ Adjustable sharpener can be used for quicker sharpening at the original factory angle prolonging the life of the knife.

**NEW** Angle Adjust Adjustable Manual Knife Sharpener (Plastic)  
**58363**  
Box, 3 per case  
0027925506875

- Offers more than 2 angles
- Adjusts from 14° to 24° per side of the knife
- Sharpens Asian, straight and serrated knives
- First of its kind Angle Adjust™ knob that allows the user to adjust the angle of both the coarse and fine sharpening slots at the same time.

Angle Adjust Manual Knife Sharpener  
**58344**  
Box, 3 per case  
0027925502655

**KITCHEN IQ™ Pull-Thru Sharpeners**

Straight & Serrated Edge Knife Sharpener  
**58310**  
Card, 3 per case  
0027925500033

- The ceramic triangular stones will not remove as much metal as carbide and this item is really to maintain the edge on your knife
- Two stages: fine and extra fine

## KITCHEN IQ™ Pull-Thru Sharpeners

### Santoku Knife Sharpener 58311

Card, 3 per case  
0027925500248

- Pre-set sharpening angles designed to keep straight edge blades and thinner Asian edge blades in prime condition
- Both slots use crossed ceramic rods to finely hone your knife's blade to razor sharpness

### Straight Edge Knife Sharpener 58312

Card, 3 per case  
0027925500361

- This sharpener uses pre-set carbide blades and crossed ceramic stones to bring your knife's blade to razor sharpness
- The triangular shaped ceramic stones can be used on either straight or serrated edges
- Works best when trying to sharpen very dull or damaged blades and maintain the edge on sharp knives

### Diamond Pro 2 Stage Knife & Scissor Sharpener 58325

Card, 3 per case  
0027925502419

- The coarse slot includes preset diamond rods quickly sharpen straight edge knives
- The fine slot's triangular shaped ceramic stones finish the knife's edge and sharpen serrated knives
- Scissor sharpener works on both right and left handed scissors featuring floating ceramic rods

**DIAMOND EDGE 2 ELECTRIC KNIFE SHARPENER**

The Diamond Edge 2 Electric Knife Sharpener is designed to keep all cutlery in prime condition. It incorporates both mechanical and manual sharpening elements, with a coarse electric stage for sharpening dull knives and a fixed-angle ceramic stage for final honing and quick touchups, all of which insures professional results every time. The soft grip and non-slip feet make it safe and easy to use.

**Electric Sharpening Features**

- Coarse diamond sharpening wheel
- Fast and precise sharpening of straight edge blades
- Blade guides hold knife at correct sharpening angle

**Manual Sharpening Features**

- Crossed ceramic stones are pre-set at correct sharpening angle
- Polishes a freshly-ground edge to razor sharpness
- Lightly hones straight or serrated edge blades

**Diamond Edge 2**  
**58349**  
Box, 1 per case  
027925503744

**Blade Guide**

- Straight Edge Blades (Electric and Manual)
- Serrated Edge Blades (Manual)

**DIAMOND EDGE 3 ELECTRIC KNIFE SHARPENER**

The Diamond Edge 3 Electric knife sharpener is designed to keep common household knives in prime condition by incorporating both mechanical and manual sharpening elements. This product includes both Coarse and Fine stages of electric sharpening for quick sharpening of dull knives, and triangular shaped ceramic stones for sharpening serrated style knives. The blade guides insure the correct angle and professional results every time! The soft grip and non-slip feet make it safe and easy to use.

**Electric Sharpening Features**

- 2 stages of electric knife sharpening
- Fast and precise sharpening of straight edge blades
- Blade guides hold knife at correct sharpening angle
- Coarse diamond sharpening wheels to sharpen a dull or damaged knife
- Fine ceramic sharpening wheels to finish the edge

**Manual Sharpening Features**

- Triangular shaped ceramic stones are pre-set at correct sharpening angle

- Transparent blade guard covers the blades for greater safety
- Compact design
- Easy to use
- Dishwasher safe

## BETTER ZESTER

Using the KitchenIQ™ Better Zester is just fun! Never before has zesting been so effortless. The combination of the V-etched teeth and non stick coating allow this Better Zester to skim across the surface of rough citrus while producing thin wisps of flavorful zest without grating into the bitter pith. The frame of this unique Zester is formed with a slight curve allowing a smoother, more steady stroke when zesting. (Or what some call violining! Now just call it better zesting!) KitchenIQ™ has added additional features like the fresh zest storage container with a fantastic squeegee attached for easy zest removal from the blade.

### The KitchenIQ™ Better Zester is simply a better way to zest!

- Over 300 V-etched teeth use the shear action of their unique V-shapes to produce even, uniform cuts while using minimal force
- A non-stick coating allows foods to glide across the blade smoothly and makes clean up fast and easy.
- The fresh zest container includes measurements and holds the freshly grated zest, allowing cooks to place the zest directly into their dishes (no need to dirty a measuring spoon).
- The “one of a kind” squeegee slides across the back of the blade removing the flavor rich moist zest from the back side of the blade
- Designed in the USA by Smiths®, The Edge Experts®, a leader in producing sharp edges since 1886
- Patent pending stainless-steel V-etched zester blade for zesting all types of citrus
- Patent pending non-stick food approved coating for smoother zesting and easy clean up
- Fresh zest storage container with measurements
- Squeegee for easy zest removal
- Non slip tip
- Ergonomic soft touch handle
- Reusable cover
- Dishwasher safe

Smoothly and effortlessly zests without grating into the bitter pith.

Includes fresh zest storage container with measurements.

No more dirty fingers! This little device slides across the back of the blade removing the wet zest.

V-shaped teeth easily glide across the surface of the fruit using their shear action.

## CONTAINER GRATER

One of the most versatile of the KitchenIQ™ V-etched graters, the container grater includes three patent pending v-etched blades with the signature non-stick coating along with a slicing blade. The storage container includes measurements in ML and cups. The non-slip base allows for stable grating. Food can be stored in the container until ready for use at the table or in meal prep.

### Container Grater (Clear)

58352

Box, 3 per case  
0027925504031

- 3 styles of stainless steel v-etched blades: fine, coarse and extra coarse
- 1 slicing blade
- Signature non-stick coating easy to clean blades
- Storage container with measurements
- Non-slip base
- Soft touch accent blades store inside the container
- Dishwasher safe - top rack only
- Designed in the USA

**Diamond Stone**

**58357**

Card, 2 per case  
0027925500774

- Interrupted surface speeds sharpening
- Plastic base with non-slip rubber feet
- Clear plastic lid protects the stone
- Micro-Tool Sharpening Pad™
- Excellent for use on Japanese/Asian edge blades

**Honing Solution**

**58358**

Card, 6 per case  
0027925501672

KitchenIQ specially formulated Honing Solution is non-perroleum based and features built-in stone cleaning agents and rust/corrosion inhibitors. It is excellent for lubricating your Arkansas or diamond stone when sharpening. Never use an Arkansas stone without some kind of lubricant, or you will clog the pores and cause it not to sharpen properly. Diamond stones can be used dry, but we recommend using a lubricant for better performance.
