**17. GRILL PRO SQUARE WOK TOPPER**  
Porcelain-coated perforated wok with stainless steel handles is for grilling foods like shrimp and veggies that need a stir without falling through the grill grates. **\$20.20 | wayfair.com**

**18. OUTSET COLLAPSIBLE GRILL AND CHIMNEY STARTER**  
Combo grill and chimney starter makes lighting a charcoal fire quicker, painless and chemical-free. No lighter fluid needed. Durable aluminum plated carbon steel with stay cool nylon handle. Quick assembly with no tools required. **\$22.98 | amazon.com**

**19. MAVERICK WIRELESS FOOD THERMOMETER ET-733**  
This set comes with a weather-resistant wireless transmitter, receiver and two high-heat probes which can monitor the temperature of two meats at once. Insert the probes into your food, and monitor the cooking progress from up to

300 feet away. Use one for meat and the other to monitor the temperature. Select one of 15 preset temperatures, including game meats, or input a custom temperature and receive an alert once the meat has reached desired doneness. **\$69.99 | bbqislandinc.com**

**20. GRIZZLY BEAR PAWS**  
These meat handler forks take the frustration out of pulling pork and are handy for lifting meats. Made in America and designed by barbecue enthusiasts. **\$12.95 | bearpaw-products.com**

**21. SPITJACK MAGNUM MEAT INJECTOR**  
Get extra flavor deep into your meat using the patented dial, which lets you adjust the flow of marinade or brine. Injector kit includes four needles with varying openings and tip shapes for injecting thick and thin marinades from a cartridge with a 1.7-ounce capacity. Nickel-plated brass and die cast zinc. Breaks down for easy clean up. Case included for storage and transport. **\$115 | spitjack.com**

**22. STEAK CHAMP**  
Portable, cordless, stainless steel probe takes the guesswork out of grilling perfect steaks with this innovative thermometer which measures the steak's internal temperature. It magnetically activates when placed into the bottom section of its stand. Insert sideways into the steak and cook as usual. A green flash indicates medium rare, a yellow flash indicates medium and a red flash indicates medium-well. **\$59.95 | surlatable.com**

**23. SEARZALL**  
Secures to the top of a blowtorch and creates a meat-searing exterior. By forcing the thin flame of the blowtorch through two layers of fine, high-temperature-resistant wire mesh, you get a consistent, evenly spread flame, which provides a tasty finish and will sear foods like steak, scallops, oysters and smores. The shallow flame hits only the surface and is compatible with any 16-ounce propane torch. **\$75 | searzall.com**
