

In 1882, an Indianapolis chemist noticed how clean and shiny his tarnished pot was after cooking rhubarb. Using an active ingredient that's found in the plant he formulated a talcum-smooth cleanser and sold it to the city's taverns. So pleased were his customers with how well it worked on bar fixtures, the product was dubbed the "Bar Keepers Friend."

The same non-bleach formula that put a shine to the brass rails of taverns at the turn of the century is used in households today on stainless steel, porcelain and ceramic surfaces among many others.

Today, Bar Keepers Friend is still made in Indianapolis and contains no phosphates.

Use Bar Keepers Friend® in the Kitchen:

- Sinks — clean sinks made of porcelain, stainless steel or solid surfaces. Other cleansers containing bleach are not recommended for stainless steel. BKF® is also recommended for sinks in bronze, brass and copper.
- Faucets — clean faucets in chrome, brass and other finishes.
- Countertops — clean countertops made of laminate, composite and solid surfaces.
- Cooktops — clean and remove discoloration on glass and ceramic cooktops.
- Cookware — clean and shine pots and pans made of stainless steel and copper.
- Tile & Grout — clean porcelain and ceramic tile. Bar Keepers Friend® also cleans light coloured grout.
- Coffee Makers - clean coffee residues for better tasting coffee (cleaner); remove the scale so that coffee brews better (descaler).
